

let's psychalk..!

Print out this card - it should fit in your wallet as it is based on a standard business card size. When you find a psychotronic or psychoptic mind control hot zone in your town, leave a chalk symbol for other paranoids to find.

Please let me know if you have suggestions or changes to the psychalking symbol language, have an alternative version you have made, or pictures of psychalking you've come across to lyle@zapatopi.net
[do not show to the forces of mind control please]
